

# How do I get involved?

## The Common Good Awareness Project

### Start:

Find out  
What the  
Common  
Good is

### Community research

Talk to folk in the community, find out what folk are thinking about, what they are interested in. What they know about, what they don't know about. What they would like to know about

### Filming photography

Record ideas and start to build a record of what is in the community and what is missing. Go for walks talk to people. Think of ways to make engaging with your community interesting. Exhibit what you record, make exhibitions, story boards of what you find

Find out  
what you  
are good  
at doing

### Mentoring young folk

If the Common Good disappears young folk will suffer most. Think of ways you could help them to preserve assets for their future and how to get them involved in community ideas

Work in  
the  
Common  
Good
